These are just the basics,
call us with your "unique" repairs too!

OUR SERVICES:

With over 25 years combined experience, we have people focusing on helping the customer to the best of our ability, having the best sales representatives and technicians on our staff.

Our sales reps are friendly, respectful, understanding and go through many hours of training before they call their first customer. We also take pride in our technicians' ability to repair almost anything. Our technicians have been through many electronic courses, training, and have the experience to be able to repair all kinds of equipment.

RECYCLING:

Do you need to get rid of your broken non-repairable equipment?

WE RECYCLE, contact us, for further information.

OUR IES WARRANTY:

We offer our customers an 18 month warranty from the time the equipment leaves our facilities. In addition, we are always willing to go above and beyond our customer's expectations to work with you if your equipment ever develops any issues that we can assist you with past your warranty expiration.
